List of Training Resources for Teachers

Dear Colleagues,

Sharing with you a list of training content available online.

Most of these courses are available on DIKSHA portal but the availability of certificates depends on whether the portal for the course is open. My recommendation is that you take up this course anyway. I have shared the videos/course link and other details under each topic which have free access and don't need any kind of log in.

In case you are able to log into these courses via DIKSHA app, do finish the assessment. Once you receive the certificate, share it with your school so that your individual learning hours can be updated by them

ROBOTICS & AI

OBJECTIVE- A set of five videos explaining the basic of AI and Robotics and the simple ways in which they already exist in our lives. They also explain the fundamentals of Robotics, addresses myths around AI, policy related to AI in India and how can teachers use it in their classrooms.
