ELECTRONIC NEWS LETTER
BIRLA SHISHU VIHAR, PILANI (RAJ)

Creativity shouldn't stop...

Change is inevitable and inescapable. It is the only constant. The wake of covid-19 has marked the beginning of innumerable changes. Education industry has gone under a substantial revamp with online education being the face of the education system. Though science fiction and researchers could envisage a change which suggested virtual classroom taking over traditional classrooms yet the beginning of online education was quite sudden and unexpected and the challenges ahead were endless. Delivering lessons online is one aspect, it also came up with the challenge of conducting activities online as well taking care of mental health of the students. But with great efforts of the administrators and the teachers the stone of impediments started melting gradually. The port everyone comfortably had been residing in was jeopardized in one stroke of the deadly virus, everyone had to look for a safe and promising haven that could have saved the people from being drowned. That's how the concept of switching to online mode from traditional classroom system had taken shape.

Birla Shishu Vihar with its undaunted faith in goodness of everything dealt with the situation effortlessly. From conducting online classes to organizing training for the teachers and students, from recreational activities to webinars and online meeting, from literary activities to various celebrations, from online quiz to assignments, from prompt decision of the captain of the ship to the immediate action by the teachers, it all has been highly praised by our stakeholders. In its incessant effort of delivering excellence the school is going to hit another landmark, i.e. the electronic version of its newsletter.

Online Academic Classes

By Mahi Jhunjhunwala

We enjoyed online classes . We found a new way of learning and interactive most than most to face classes

Teachers you all have been superb during whole session .we learned a lot in every subject these days.thank you for your cooperation, taking queries and interaction

"Visual learning makes the concept easy and enjoyable"

GLIMPSES OF SKILL BASED LEARNING

AT PRIMARY LEVEL IN OUR PRIMARY CLASSES

The school is focusing on development of skills among the learners. It is ensured that the learner finds school a welcome place and the monotony of lectures is broken for good. Here are a few excerpts of the variety of such activities that were conducted in our school.

STUDENT EXCLUSIVE REPORT

"The debate was highly argumentative and enriching"

Not all wars require arms and ammunitions. We can battle with words if we learn to defend what we believe. Conviction in one's arguments can probably be the mightiest weapon to outshine the opponents. Debating helps us to improve our oratory skills, to improve our arguments. It also aims at unlocking any mystery, digging out the cruellest truth.

A cloud of mystery started getting intensified on China's Corona Connection. There had been speculations and claims that China has deliberately caused the outbreak of a deadly virus to establish its supremacy over the world. On contrary World Health Organization stood in defense of China claiming that China doesn't have any hand in the outbreak of the virus.

All these claims and speculations extended us an opportunity to organize a debate in quest of the truth. On 15th May, 2020 Birla Shishu Vihar organized an Intra-school online debate on the topic: 'Denial Doesn't Dismiss China's Corona Connection'. At the end of the debate it was quite clear that the proposal of the house was not completely groundless. It was a treat watching the participants waging war with words.

GROUP DISCUSSION

Guys make Better Friends than Girls

'Reading maketh a full man, writing an exact man and conference a ready man' – Francis Bacon

Making the students ready to face the broader world is what we aim at. Therefore, our teaching-learning process incorporates providing adequate exposure to the students through various activities so that they can indulge in healthy and intellectual discussions. On 1st May, 2020 an online group discussion was organized for the students of class XII of BSV on the topic 'Guys make better friends than Girls'. As we constantly work on making this earth a beautiful place, we felt breaking the barriers would be first step towards it. The topic so, was chosen to slap the stereotype, to condemn a gender biased society. It was altogether a very constructive session. The participants were thoroughly prepared and exquisite in their presentation. They unanimously reached to the solution that it is not a guy or a girl makes a good friend, it's the friendly and amicable qualities most desired in a friend.

SCHOOL AD-MANIA

BY BHUMIKA BHATTACHARYYA

The Intra-Class Ad mania was held on
12th May 2020

The event extended an opportunity to
the students of class X to paint
themselves in the hue of creativity. It
was a perfect blend of imagination
and technology. The highlight of the
event was the exquisite
materialisation of the ideas by the
students. We had the students of class
IX and XI as the audience. Teachers'
remarks at the end of the show served
to be a source of infinite inspiration.
The event taught us in true sense to
dream, create and inspire.

"Appreciate these stars
instead of searching for
moon, these stars will stay
home for you."

Webinar: Online Education, The Exigency

Vision without action is merely a dream. Action without vision just passes the time. Vision with action can change the world. The zeal, indomitable spirit and tenacity to overcome any obstacle have taken human beings to the space, to the moon and so on. That's an example of vision with action.

The present global situation is assumed to be a setback for the development of human civilization. It has imposed a lot of restrictions on the way a society functions, causing disruption. But there are people to whom restrictions bring an opportunity to explore new avenues and resolve the chaos.

The present education system certainly desires to be reformed. Online education is not merely the need of the hour; it is probably the future of education system. There are researches and discussions carried out at every nook and corner of the world on Online Education. Realizing the need of the hour, Principal, Birla Shishu Vihar Shri Pavan Vashishtha conducted a webinar on 7th May, 2020 on the topic: Online Education, The Exigency. An eminent panel of six educationists joined the discussion to express their views on online education. The panel consisted of Dr. Meenakshi Bana, Head, Blue Bells International School; Shri Ashok K Pandey, Director, Ahlcon Group of Schools; Maj. General S S Nair, AVSM(Retd.), Director, Birla Education Trust; Shri GS Madhav Rao, Chief Academic Advisor, Synergy School System; Dayita Bira Datta, Former Vice-principal, Welham Girls School; Anez Karte, Former Head of Training, The Doon School and of course Principal, BSV as the moderator. The thought-provoking session had been very enriching and inspiring.

STORY TELLING SESSIONS

The most fragile thing on earth is probably the human mind. It has to be handled with care and love. Therefore it's very important to take care of one's mental health. Children are invariably immature and need guidance and care at every step. At this situation even an adult needs love and care.

Realizing the gravity of the situation, mental health webinars were organised at regular intervals for both students and teachers. It was aimed at de-stressing the delicate minds, spreading the hue of happiness and strengthening the bonds of relationship.

INTER NATIONAL YOGA DAY

It is said that Yoga doesn't transform the way we see things; it transforms the person who sees. Changing the world may not be possible but changing self for creating a beautiful world is certainly a wise stand.

Performing yoga asanas has endless benefits. It doesn't merely keep us fit and healthy; it also teaches us to refurbish our perceptions.

POSES FOR YOGA

INTERNATIONAL YOGA DAY
21.05.2020

Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help in well being.

Poses for Yoga Video

Bright Side..

by Neetu Rathore...

When you are irked in frustration
And find other way to step out...
When your rejections make you feel like a failure
Don't be in depression, let your strength shout.....
Just make your mind free And sit down
Be positive, think positive and move towards a positive way
For those who never help you but always have something for you
to say..
Don't let your confidence down;
And get them out of your way.....
It would not be the end at all
there will be many more things to achieve.....
You have a fire inside and a power house you are
Don't ever undervalue what you believe.....
A faith in you big smile
Keep calm and work on....
The feeling which will come to you
All your distress will be gone.....

Books!!

By Mrs . Meenal Sharma

It is said that books are better than Internet. Are books really better than internet? The debate will go on...But students form their own opinions. Watch what Ansh of class VII-A tells us about books. The session was organized during online classes under the guidance of Mrs. Meenal Sharma.

"Don't struggle with loneliness, struggle with the reality we are living in."

Creative Zone..

Artist is often considered the process of deliberately arranging elements in a way that appeals to the senses or emotions.

During the lockdown period, we decided to make WhatsApp group .In that group I had shared some tutorial videos and with the help of those videos children's made beautiful paintings and craft work. After that they also shared those pictures with me.

By this type of activities, students enjoyed & learned a lot.

It showed their creativity, interest towards art and craft.

SPORTS ACTIVITIES

Our main purpose is to keep our students healthy during the crucial period of lockdown we have initiated a couple of activities for the students of different age groups which could be performed by them at their home to keep them physically and mentally active like different types of exercises including cardio, stress buster activities, relaxing acupressure points, basic game skills, super brain Yoga, meditation, traditional sports, aerobics Rhythmic activities, safety security and health awareness. We will also try to improve the power, speed, balance, coordination, strength and endurance of the students.

Birla shishu vihar, forte

Every school aims at imparting a complete and quality education. For ensuring a comprehensive and all-round development of personality of each and every child it's a prerequisite to provide ample opportunities to the students through various activities. The concept of holistic education is religiously followed at BSV with the objectives of developing an analytical mind, intellectual curiosity, moral integrity, a strong sense of values, a disciplined life style and creating a feeling of companionship among students. Enforcement of lockdown shattered our mind temporarily since the common cord of meeting the students was snapped. But gradually the wheel was back on track with the students joining the teachers online for their regular classes. The living room of both the students and teachers started buzzing with cluster of activities being conducted online. Dance, Yoga, Aerobics and Music became part of their daily activities and learning became interesting again. Before closing for the summer break, it was necessary to rejuvenate everyone with some refreshing activities.

BSV Forte, conceived by Principal, BSV and executed by a group of teachers was presented to the audience on 17th May, 2020 showcased the unique talents of BSV. The event filled us with abundant joy and ecstasy.
