Learning Beyond Borders, Growing Beyond Boundaries

January 2024

## FROM THE PRINCIPAL'S DESK:

New Year greetings to all!

I hope this message finds you all in good health and high spirits. As we embark on a brand new year, I wanted to take a moment to extend my warmest greetings and best wishes to each and every one of you.

The start of a new year is always a time of reflection, renewed energy, and fresh opportunities. It is a time to set goals, embrace new challenges, and strive for excellence in all that we do. As we step into this new chapter, I am confident that together, we will make great strides and achieve remarkable things. Let's not forget that each day is an opportunity to grow, to discover your strengths, and to make a positive impact on the world around you. Embrace every moment of this new year and seize the countless possibilities that lie ahead. Let us continue to work hand in hand to provide a nurturing and stimulating environment that fosters both academic and personal growth.

As we move forward into this new year, let us embrace the challenges that come our way with resilience, determination, and a positive outlook. Together, we can create a vibrant and inclusive learning environment where everyone feels valued, supported, and inspired. Once again, I wish you all a happy and prosperous new year. May it be filled with joy, success, and countless opportunities for growth.

With warm regards,  
**Principal**  
Birla Shishu Vihar, Pilani

- **English Handwriting**
- **Parent Teacher meeting**

## CHRISTMAS CELEBRATION

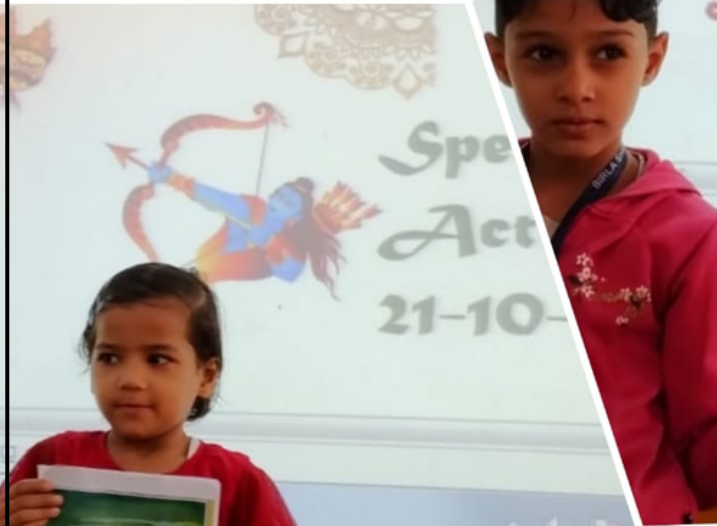

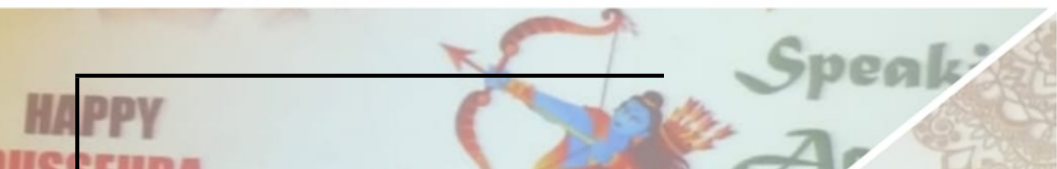

The festival of Christmas is most awaited by children. The festival of Christmas doubles the happiness of the winter season in India. Christmas is celebrated in BSV with great enthusiasm and zeal. The kids are most excited about the celebration of the fest. This Year also the Junior school of BSV put in a lot of effort and excitement in the celebrations. Be it the mood, the decorations, the anchoring, the marvelous performances. They poured in their heart and soul to celebrate the ending of a remarkable year and welcoming the New Year! A grand show was put on 22 December 2023 by the kids which included welcoming the chief guest, our Principal sir Mr. Pavan Vashishtha with a beautiful handmade greeting card. The program started with a confident anchoring by the students of class II A prayer by the children of class III, a melodious Christmas carol by the kids of class II . A delightful Christmas ramp walks by the tiny tots of Nursery and LKG. The Program was continued with enchanting dance numbers by the children of classes UKG and I A skit was performed to spread the message of Christmas. To top it all a few teachers of junior school took to the stage to wish everyone present there merry Christmas and a happy new year with song and dance. To conclude the program Our Principal sir appreciated everyone and gave his blessings for the new year. Christmas celebration makes the end of the year a beautiful one. It spreads love and harmony among people of different religions. The ending of the Christmas celebration marks the beginning of the New Year celebration. Our little artists had a great time making holiday magic! With tiny hands full of excitement, they created various characters (snowmen, Santa clause, gift socks, etc) from colourful craft paper.

## SHOW AND TELL

Little ones have always fantasized to show their creativity. Thus the Competition for Show And Tell was conducted for Foundation Stage Children (Nursery – II) on 07/10/2023. Show and Tell activities provide opportunities for both fun and learning. Show and tell sessions let students share their experiences and introduce children to the different perceptions, environments, and interests of their fellow classmates. Students brought their favorite item from home to school and spoke a few lines about it. The activity helped children to develop their verbal communication skills, enhanced their social skills and helped them improve their self-confidence to speak in gathering. Children participated with zeal and showed their talent. It helped them in exploring new ideas, creativity as well as develops their self-confidence and speaking skill. It also shows child's mood, emotional wellbeing, productivity, learning and behavior. Keeping in mind the holistic development of young future stars, teachers guide them to bloom and encourage them to participate with enthusiasm

## DUSSEHRA ACTIVITY

Embracing Diversity and Cultures through Festive Learning.

Participating in festive celebrations holds a significant role in the educational journey. In our culturally diverse country, these occasions serve as valuable opportunities for students to not only understand the cultural and historical importance of festivals but also to appreciate and embrace the rich tapestry of traditions around them. By actively engaging in celebrations, students cultivate an open-minded approach towards diverse cultures, fostering unity within the school community. During the joyous season of Navratri and Dussehra, on 21.10.23 young learners in classes nursery to II delved into a spectrum of creative activities. These included crafting themed projects and participating in expressive exercises like composing poems, stories, and enacting short scenes from the Ramayana using stick puppets. The festivities also featured enjoyable activities such as coloring and crafting, creating an atmosphere that not only celebrated the festivals but also enhanced the bonds within the school community

## LITTLE EXPLORERS

Have you ever thought about the air around you and the space it takes up?

Probably not because you can't see air. But it's there!

The air around us takes up space, just like we do. The only difference is that we

cannot see the air and the space it takes up, like we can see our bodies taking up space.

Class II children were taught about Air and how it is important for all living

organisms. While discussing about the properties of air group discussion was held in the class that Air is a matter and it occupies space. To prove the point a classroom

activity was held in which children brought balloons. Teacher assisted them in filling

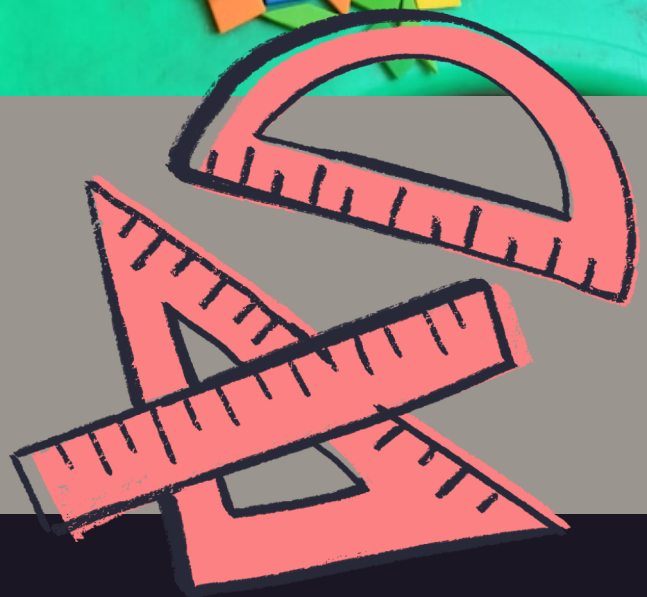

air in the balloons in order to explain that the size of the balloon changed because now it has air in it. Everything in the world takes up space, and air is no exception!

Children had fun doing the activity and meanwhile they learnt the concept too that Air occupies space.

## MATHS ACTIVITIES MAKE LEARNING FUN

Activities make math more engaging and enjoyable for young learners. By incorporating hands-on and interactive experiences, children are more likely to be motivated and develop a positive attitude towards math. This can help build their confidence and enthusiasm for the subject. Activities provide concrete experiences that help children understand abstract math concepts. Activities encourage active learning, where children are actively involved in the learning process. This promotes critical thinking, logical reasoning, and analytical skills, which are crucial for mathematical proficiency. The little kids of Nursery and LKG did many hands on activities like jumping and counting, matching toys with numbers and sorting the numbers and making groups. The tiny tots of UKG engaged themselves in Bindi sticking and bundle making to learn Tens and Ones. The children of class I took to using different shapes and creating their own master pieces and learnt about patterns with the help of traffic lights. The children of class II used different wrappers, bags and bottles to find out the weights and capacities in KG and Grams. They were excited to guess and find out the distance they travel every day to school. They showed confidence in time telling on their handmade clocks.

By associating math with these types of enjoyable experiences, children are more likely to view math as accessible, enjoyable, and achievable.

## **Cursive Creations: Tiny Hands, Big Writing Adventure**

In an effort to cultivate the artistry of written expression, our school proudly hosted a Cursive Handwriting Competition on 9.12.23 for our foundational classes. This event aimed to celebrate the beauty and skill of cursive writing.

Students from foundational compartment eagerly participated in it. The competition wasn't merely about developing proficiency but also embraced the essence of individual style and graceful strokes that define cursive writing.

The participants showcased their mastery of loops, curls, and fluid letter connections.

Witnessing the students' enthusiasm and dedication to perfecting their handwriting was truly inspiring. It wasn't just a contest; it was a celebration of the timeless art of cursive writing.

This competition not only honed the students' writing abilities but also instilled in them an appreciation for the nuances of language and the aesthetic value of handwritten communication.

# Hindi Olympiad

बिरला शिशु विहार में 5 दिसंबर 2023 को आयोजित 'अंतर्राष्ट्रीय हिंदी ओलंपियाड' परीक्षा में कक्षा एक और दो के छात्रों ने उत्साह पूर्वक भाग लिया और सफलतापूर्वक परीक्षा दी। छात्रों के परीक्षा के परिणाम भी अति प्रशंसनीय रहे।

विवरण इस प्रकार से है:-

\*कक्षा एक और दो की छात्र संख्या - 55

\* स्वर्ण पदक -18

\*रजत पदक -16

\*कांस्य पदक -6

इस उत्तम उपलब्धि के लिए छात्र प्रशंसा के पात्र हैं। इसी प्रकार छात्र उत्तरोत्तर प्रगति के मार्ग पर आरूढ़ रहें यही प्रार्थना है ।

## PROGRESSIVE JOURNEY

A parent-teacher meeting is a perfect way to discuss the child's progress, the best ways to help the child, and exchange insights and thoughts about the child's developmental milestones and academic progress. In accordance with the school activity calendar, an exhibition of projects, activities throughout the session 2023-24 displayed during PTM on 23/12/23 at School MPH which included display of artwork and academic activities educational charts, handmade images, etc. Besides the display of project work, the pictures of students participated in live demonstrations in storytelling poem recitations, thus showcasing their talents and holistic development.

Interaction (PTM) between the staff & parents was based on the following agenda:

- Sharing Students' Portfolios & discussion of their progress
- Distribution of Assessment Schedule
- Exhibition of the Students' Project Work

Collection of documents for completion of students portfolio like health cards etc. Parents are encouraged to participate in our PTM meetings actively. This helps our teachers and parents to know one another better and work for the benefit of the students. We urge and encourage all parents to attend the PTM schedules regularly.
